

# EHFCN WEBINAR

## How does the IKZ (Information Hub Healthcare Fraud) work in the Netherlands?

### Short description

Introduction of the Informatie Knooppunt Zorgfraude (IKZ), an organization that helps nine organization's in the Netherlands to combat healthcare fraud.

The IKZ has two goals:

- enrich signals of healthcare fraud;
- report trends and phenomena

### Defined goals

In this presentation, we will introduce our position and role, explain our method in enriching signals and provide examples of completed studies.

After the webinar, the presentation (PPT & video) will be available on the Webinar Platform.
