

EHFCN WEBINAR

Fraud alerts: spotlight on fraud cases in Europe

Short description

This Webinar will present you 2 concrete current European fraud case examples. They are relevant to state and private medical cost coverage. These current fraud cases will certainly shed light on the new fraud methods used by fraudsters. We will also help you to better understand how to discover, analyze and solve these fraud cases.

Defined goals

- Case examples to show where alerts can help predict and prevent fraud in public and private sector
- Connection to data analysis
- Sharing good practice & information on investigation techniques
