

EHFCN WEBINAR

European Artificial Intelligence Act: legal and ethical impact of AI, its challenges and risks

Short description

The European Union is proposing the first-ever legal framework on Artificial Intelligence (AI), which addresses the risks of AI and positions Europe to play a leading role in the world.

This Webinar will provide a general overview of AI in Europe, its challenges and its fears.

Kai Zenner, Head of Office & digital policy adviser of German MEP Axel Voss, will explain the behind-the-scenes discussions around the AI Act in the European Parliament, the fears and the opportunities of this new regulation.

Defined goal

- Giving a general overview of the European Artificial Intelligence Act.

EHFCN WEBINAR

European Artificial Intelligence Act: legal and ethical impact of AI, its challenges and risks

Speaker

- Kai Zenner: digital enthusiast focusing on Artificial Intelligence, data and the EU's digital transition. Soft spot for interinstitutional reforms and the better regulation agenda. Cooperative and pragmatic approach, always trying to strike a balance. Annoyed by stagnation, ideological mindsets and political power plays in the EU institutions and elsewhere. The good policy-maker is inclusive, willing to compromise and strives for constant renewal.
Graduated in politics and law, after specializing in Security Studies and Foreign Policy Analysis as well as in Constitutional and European Law. Studied Political Science (B.A.) at University of Bremen, Law (First German state examination / Dipl.-Jur.) at University of Freiburg / York / Münster, and International Relations (M.Sc.) at University of Edinburgh.
Started his professional life as Research Associate at the European Office of the Konrad-Adenauer-Foundation in Brussels, before moving to the European Parliament as Head of Office and Digital Policy Adviser for MEP Axel Voss (EPP Group) in mid-2017.
